Vision & Mission

Creativity is thinking up new things. Innovation is doing new things."
                                    - Theodore Levitt

"To be recognized as an IT leader company in quality and value and as a critical component of corporate strategy, to be loved by our clients and staff, and to be showered in accolades and bonus checks."

"Our vision is put into action through programs and a focus on IT needs of the enterprise to provide value by innovation and business solutions".

Our willingness and emphasis on continuous learning & our ability to act in the face of uncertain circumstances, act as our pillars of Innovation.

3i Consulting put its complete Insight in Understanding a specific cause and effect relationship for a requirement and then provide or offer conceptually correct and workable solutions there by achieving easy scalability of the solution, increase in the Return on Investment (ROI) and reduction in the Total Cost of Ownership (TCO).
